### Construction Method:

1. Create a 4-balloon cluster using 2 x 12" Red and 2 x 12" White inflated to 9" and wrap around the base of one of the lamp stands.
2. Create a 4-balloon cluster using 2 x 5" Red and 2 x 5" White inflated to 4.5" and wrap above the previous cluster.
3. Create 2 more matching clusters, one with 12" balloons inflated to 8", and one with 5" balloons inflated to 4". Wrap these on the top of the pole, larger cluster on top.
4. Inflate 2 x 260 Blue fully, let a little air out, and tie into a duplet. Repeat, with 1 x 260 White and 1 x 260 Red. Twist the duplets together to form a cluster of 4.
5. Pull the 260 cluster through the base balloons between the 2 clusters, then pull the 260 balloons up through the gaps between the smaller balloons.
6. Spiral the 260's around the pole until you reach to top balloons, then twist off, deflate excess and tie off to secure the spiral in place.
7. Repeat steps 1 to 6 to make a second column, with the 260's spiralling in the opposite direction.
8. Inflate the 16" foil letters and numbers, tape up the tails and remove the tabs.
9. Stick them together with balloon bond, to make "ER" and "70". Attach scraps of 260 to each pair using stretchy balloon tape, and secure to the tops of the columns.
10. Create a 4-balloon cluster using 1 x 5" Blue, 1 x 5" Red and 2 x 5" White, inflated to 4.5" to form a collar.
11. Inflate the 24" Reflex balloon to 22" with helium, using Hi-Float if the design is to last more than a day or two.
12. Wrap the collar around the neck of the 24" balloon.
13. Pull the centre of the pennant bunting length through the collar, then tie each end of the bunting into the tops of the columns.
14. Hang the door flags on the columns by looping the hanging cord over one of the 4" balloons.
15. Position the columns a suitable distance apart to form the arch.
