

CUBEZ AND ROSES

Created By Chris Horne, Amscan International Limited.

This contemporary and stylish design works well as a centrepiece or floor-standing display.

Product Required:

- 3 x Silver Anagram Cubez: (2833599)
- 1 x 16" Square mirror or similar base
- 1 x glass vase
- White balloon ribbon
- Fresh or Silk white roses
- Strong adhesive tape (Stretchy Balloon Tape or similar)

Construction Method:

1. Cut 8 lengths of balloon ribbon, 8" long and 4 lengths 18" long. Be careful to be as accurate as possible! (NOTE: the length of the ribbons determines the height and spacing of the finished design. This can be adjusted to suit.)
2. Inflate the three Cubez with helium, and carefully tape up the tails to make them as neat as possible.
3. Tape the 4 x 18" lengths of ribbon firmly to the four lower corners of the first Cube, then to the underside of the mirror, at the corners.
4. Tape 4 of the 8" lengths of ribbon firmly to the four lower corners of the second Cube, then to the upper corners of the first Cube.
5. Tape the remaining 4 of the 8" lengths of ribbon firmly to the four lower corners of the third Cube, then to the upper corners of the second Cube.
6. Place the vase of roses in the centre of the mirror.

Estimated Labour time: 15 - 20 minutes.

As Anagram Cubez are available in a range of solid colours and many different prints, this design can be adapted to suit every occasion!
