

Birthday Sunshine

Birthday Celebration

Designed By Chris Horne

Product Required:

4 x Anagram Clear Crystal Clearz (8284111,02))

4 x 12" Sempertex "Happy Birthday Sunshine" Pastel Matte
your colour choice (20012458)

16 x 5" Sempertex Pastel Matte, 4 of each colour to match 12"
2" wide satin ribbon to match latex balloons

Small sand or water weight

Stretchy balloon tape

White curling ribbon

Estimated Labour time: 15 minutes

Construction Method:

1. Pre-stretch the 12"/28cm Latex balloons by inflating fully with air and deflating, two or three times.
2. Create the double balloons by putting a small puff of air into the Clearz, then inserting the latex balloon until the necks are level. Inflate the latex balloon with helium until it's about 8"/20cm in diameter, and spherical. Then inflate the Clearz balloon with helium until it measures 18"/45cm. Use the neck of the latex balloon to wrap around several times and seal the Clearz. Add an air-filled cluster of 5"/13cm latex balloons as a collar and fly on matching satin ribbon.
3. Create a 4th double balloon, this time with air, in the same way. This time, the collar should be inflated to 4"/10cm. Tie the small sand or water weight into the collar.
4. Take a piece of white curling ribbon approx. 24"/60cm long and stick it to the top of the air-filled Clearz balloon with stretchy balloon tape. Use this to attach the ribbons from the helium filled balloons in a staggered arrangement.
5. Make 3 small bows of the satin ribbons, tying round with white curling ribbon, and tie to the point where the ribbons are tied to the Clearz balloon. Trim of any white curling ribbon that shows.
6. Add a final small bow in matching satin ribbon to the base as shown.
