Construction Method:

1. Inflate 9 of the 5" Rose gold, plus 4 of the robin egg blue 5" latex to varying sizes between 2" and 3½", tying securely and individually. Set aside for later.
2. Inflate 2 more of the rose gold 5" balloons to around 3" and tie into a duplet. Inflate the remaining rose gold balloon and the last robin egg blue balloon to around 2½", and tie into a duplet. Twist the two duplets together to form a cluster. Set aside for later.
3. Inflate the 12" Rose Gold printed balloons to 11" with helium, and tie each of them to a length of tulle ribbon. Create 2 bows from tulle ribbon, and secure these under the 11" latex balloons with a length of rose gold curling ribbon.

4. Inflate the standard foil hearts with helium, and attach them to lengths of pink curling ribbon. Wrap a length of tulle ribbon diagonally around each of the hearts, securing with a small bow. Use the minimum amount of tulle as possible to avoid adding too much weight.
5. Inflate the Orbz™ balloon with helium, and tie to a length of tulle ribbon. Twist the cluster created in step 2 around the base of the balloon. Make a bow with more tulle ribbon, tying around with rose gold curling ribbon, and tie this into the cluster. Take one of the fluffys from the garland, and add it to the cluster using glue dots.
6. Take all of the helium filled balloons from steps 3, 4 and 5 and arrange them into a bouquet. Tie the bouquet to the weight.
7. Inflate the 9” foil heart with air, and heat seal it. Tie tulle ribbon around it to match the standard hearts.
8. Take all the 5” balloons inflated in step 1, the 9” heart, and 2 more fluffys from the garland, and arrange them around the weight, securing them in place with glue dots. Add one or 2 bows of tulle ribbon.
9. Finally, add some butterflies taken from the fabric confetti to suit, using glue dots, and curl all ribbon ends loosely.

Estimated Labour time: 15 minutes.
