1 x Anagram Sitting Santa Multi-balloon (3398701)
1 x 9" Gold Star (1614899)
50 x 5" Sempertex Fashion Forest Green (20001978)
5 x Fashion Solid Red 160 (20002722)
1 x Holly and Berry String Decoration (670494)
1 x Gold Star weight (117800-19)
1 x Green Foil Weight (991365-03)

Estimated Labour time: 15-20 minutes

Construction Method:

1. Create a cluster of 5 x 5" Forest Green latex, inflated with air to 14cm.
    Wrap this around the neck of the green foil weight.
2. Create a second cluster of 5" balloons, inflated to 13cm, place it on top of the first cluster,
    and tie a balloon neck from each cluster together to secure in place.
3. Continue creating cluster and adding them, each cluster being 1cm smaller than the previous,
    until you have a tree of 10 clusters stacked together.
4. Inflate the gold star with a hand pump, heat seal, and tie to the top of the tree.
5. Inflate one of the 160 balloons to about 12", tie, and twist a series of small evenly sized
    small bubbles to create a string of "beads". Tie one end into the top of the tree, spiral down
    between the balloon, and tie the other end to the bottom. Repeat for the other 4 160 balloons
6. Inflate sitting Santa with air, and place at the base of the tree.
7. Inflate the SuperShape balloon with helium, tie to the string decoration, and then to the gold
    star weight. Position behind the Santa, next to the tree.
