

BIRTHDAY EXPLOSION

Created By Chris Horne, Amscan International Limited.

Colourful and energetic, this design is perfect for enhancing many areas of a Birthday event. It can be customised to any age using other balloons from the Birthday Explosion range, and also make a fantastic delivery piece!

Product Required:

- 1 x 36" Anagram Decorator Curve, Red: (1668899)
- 1 x 36" Anagram Decorator Curve, Blue: (1623199)
- 1 x 26" Anagram Decorator Crescent, Purple: (1641899)
- 1 x 26" Anagram Decorator Crescent, Lime: (1638499)
- 1 x 26" Anagram Decorator Crescent, Holographic Fireworks: (1624499)
- 5 x standard Birthday Explosion (30090-01)
- Co-ordinating ribbon & weight
- Balloon Bond

Construction Method:

1. Inflate all the balloons with helium.
2. Tie both the curves to matching ribbon in the normal way.
3. Attach the Crescents to matching ribbons by tying the ribbon to the point of the Crescent rather than to the tail. Tape up the tails to make them neat.
4. Tape up the tails of the standard balloons, then attach them to the curves and crescents as shown, using small pieces of Balloon Bond.
5. Assemble the bouquet as required, and tie to the weight.

Estimated Labour time: 15 minutes.

Make it LARGE by using 42" Curves and 35" Crescents instead!
